

This documentation describes the following project:  
***UniWin Implementation at Cargill Montoir***

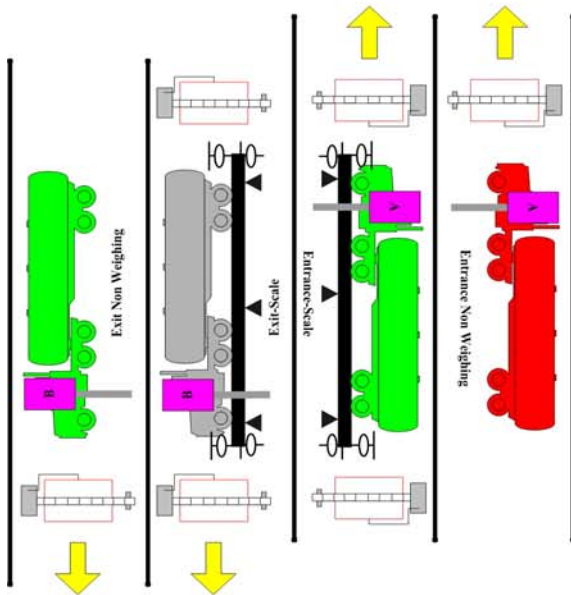

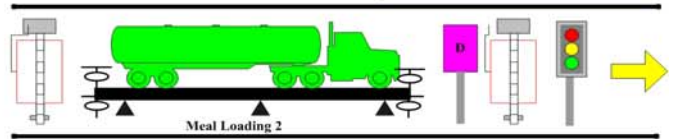

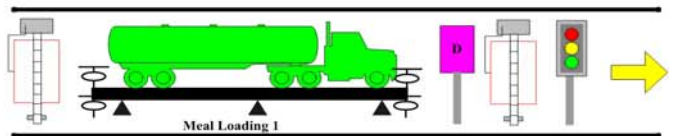

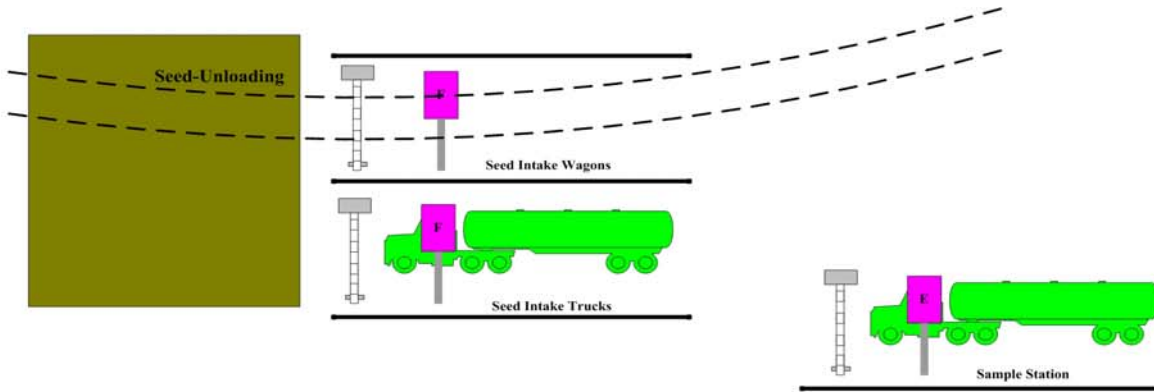

UniWin is used to manage activities related to;

- Unmanned registration via Touchscreen Terminals with the result of a Barcode-Printout.
- Automatic Call-Off-System using a big Scoreboard at External Parking.
- Unmanned Weighing at Entrance/Exit, with use of the Unique Barcode.
- Automatic Sampling and Unloading of Grain-Trucks, with use of the Unique Barcode.
- Automatic Loading/Weighing of Meal-Trucks, with use of the Unique Barcode.
- Automatic Loading of Oil-Trucks, with use of the Unique Barcode.
- Printing Weighttickets, Bill of Lading, Reports, etc.
- Interfaces with their business system called EOPD (AS-400) and an interface with an External Storage Facility.

At the backside of this document, you will find an extensive layout of this project.
